Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/01/04 has been entered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 22 is rejected under 35 U.S.C. 102(b) as being anticipated by Tai et al. (U.S. Patent No. 5,926,601).

Tai et al. discloses a display device in figures 1, 8A, 8B, and 8C comprising :

- a display panel 162 for displaying an image (figure 8C) ;
- a light source 2' (figure 1);
- a first light guiding plate 28' adjoining the light source (figure 1) and having a first pattern 156 (patterned with ridges shown in figure 8B) formed on a surface thereof for

uniformly inducing the light beam (disclosed on column 8 line 17 as collimating the light; and

a second light guiding plate 10 adjoining the first light guiding plate 28' and having a second pattern (prism patterns along bottom surface of plate 10) for reflecting the light beam guided from the first light guiding plate 28' toward the display panel (figure 1).

Allowable Subject Matter

4. Claims 1, 3-8 and 11-14 allowed.
5. Claims 23-27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

6. Applicant's arguments filed 4/1/04 have been fully considered but they are not persuasive. Applicant has argued that Tai et al. does not teach a pattern on a surface of first light guiding plate 28'. This is not persuasive as in figure 8B Tai et al clearly disclose a pattern on the first light guiding plate. This pattern on the first light guiding plate is disclosed as being usable with the light source and light pipe of figure 1.
